EXPERIENCE

Iron Mountain Philippines — Senior DevOps Engineer · Taguig City Oct 2025 – Present

- Design and maintain multi-cloud infrastructure across AWS, GCP, and Azure with custom OpenTofu modules, holding staging–production parity — **35% faster provisioning**
- Administer multi-cluster Kubernetes (EKS, GKE, AKS): zero-downtime upgrades, Karpenter autoscaling, and capacity planning for a mission-critical application — **99.95% uptime**
- Lead P1/P2 incident response and RCA backed by Grafana dashboards, alerting, and SLA/SLO monitoring — **MTTR –40%**
- Build GitLab CI/CD pipelines and remediate exposed secrets across infrastructure repositories.

One Team Anywhere — Cloud & DevOps Engineer · Mandaluyong City May 2024 – Oct 2025

- Designed AWS and GCP infrastructure with Terraform, Pulumi, and OpenTofu; ran EKS/GKE with autoscaling and ArgoCD GitOps delivery — **40% faster deploys · 99.99% availability**
- Architected a Prometheus/Grafana observability framework with alerting and on-call escalation — **99.9% SLA**
- Automated build, test, and release promotion across infrastructure, networking, and workloads — **+30% reliability**

Stratpoint Global Outsourcing — Cloud Engineer III · Mandaluyong City Mar 2022 – May 2024

- Helped design and build an internal developer platform for self-service AWS provisioning — **onboarding –60%**
- Built reusable Terraform modules for 10+ AWS services (EKS, RDS, S3, IAM), standardising deployments — **provisioning –65%**
- Technical lead for four application engineers on a telco platform — **3.6M+ users**

DXC Technology — Service Information Developer III · Taguig City Oct 2020 – Mar 2022

- Single point of contact for AWS infrastructure across three luxury retail clients operating 1,000+ stores — on-call, patching, incidents — **99.5% SLA**
- Developed Terraform modules, authored runbooks, and tuned database queries for the EPOS retail platform.

Bosch Service Solutions — Service Desk Engineer · Taguig City Dec 2018 – Oct 2020

- Wrote PowerShell automation for software installation and configuration — **install time 30 min → 2 min**
- Handled ~60 tickets daily; designed troubleshooting protocols that absorbed 40+ additional daily tickets — **escalations –15%**
